AMERICAN LIBERTY PETROLEUM CORP.
(An Exploration Stage Company)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
July 31, 2014
(Unaudited)

Note 1 - Basis of Presentation

The accompanying unaudited interim financial statements of American Liberty Petroleum Corp., a Nevada corporation (“ALP” or the “Company”), have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules and regulations of the Securities and Exchange Commission (the “SEC”) for interim financial reporting. Accordingly, these financial statements do not include all information and footnote disclosures required for an annual set of financial statements prepared under United States generally accepted accounting principles. In the opinion of our management, all adjustments, consisting of normal recurring adjustments, considered necessary for a fair presentation of the financial position, results of operations and cash flows as of July 31, 2014 and for all interim periods presented herein have been reflected in these financial statements and the notes thereto. Interim results for the three and nine months ended July 31, 2014 are not necessarily indicative of the results to be expected for the fiscal year as a whole. These financial statements should be read in conjunction with the audited financial statements and accompanying notes included in our Annual Report on Form 10-K for the fiscal year ended October 31, 2013.

As used in this Quarterly Report, the terms “we,” “us,” “our,” “ALP” and “the Company” shall mean American Liberty Petroleum Corp. unless otherwise indicated. All dollar amounts in this Quarterly Report are in U.S. Dollars unless otherwise stated.

Note 2 - Oil and Gas Properties

The Company follows the full cost accounting method to account for oil and gas properties, whereby costs incurred in the acquisition, exploration and development of oil and gas reserves are capitalized. Such costs include lease acquisition, geological and geophysical activities, rentals on non-producing leases, drilling, completing and equipping of oil and gas wells and administrative costs directly attributable to those activities and asset retirement costs. Disposition of oil and gas properties are accounted for as a reduction of capitalized costs, with no gain or loss recognized unless such adjustment would significantly alter the relationship between capital costs and proved reserves of oil and gas, in which case the gain or loss is recognized to income.

The capitalized costs of oil and gas properties, excluding unevaluated and unproved properties, are amortized using the units-of-production method based on estimated proved recoverable oil and gas reserves. Amortization of unevaluated and unproved property costs begins when the properties become proved or their values become impaired. Impairment of unevaluated and unproved prospects is assessed periodically based on a variety of factors, including management’s intention with regard to future exploration and development of individually significant properties and the ability of the Company to obtain funds to finance such exploration and development.

Loss on disposition of Oil and Gas Properties

In 2012, the Company began negotiations to sell its ownership interest in its Cortez and Gabbs leases to Desert Discoveries in exchange for a 2% overriding royalty interest in the lease should there be any future revenues derived from the property. The Company had determined that it did not wish to continue funding this project, as it is not sure if the project will be economically viable in the future. At this time, the Company cannot assign a value on this lease, as there is insufficient information to be able to do so. Accordingly, the Company completely wrote off the value of the property in 2012. Desert Discoveries is an unrelated third party.

(An Exploration Stage Company)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
July 31, 2014
(Unaudited)

Note 3 - Related Party Transactions

In January 2014, Mr. Alvaro Volmers resigned from his position as Officer and Director of the Company. At the time of his resignation the Company owed Mr. Volmers \$17,000 in unpaid director fees. This amount is still outstanding as of July 31, 2014.

During the nine months ended July 31, 2014, Mr. Robert Rhodes, the current chief executive officer of the Company, paid invoices on behalf of the Company totaling \$5,867. This amount is due to Mr. Rhodes as of July 31, 2014.

As of July 31, 2014, the Company owes \$10,113 to Clear Financial Solutions, Inc. for accounting services, a company owned by the Chief Financial Officer of the Company.

Note 4 - Going Concern

There are no assurances that the Company will be able to either (1) achieve a level of revenues adequate to generate sufficient cash flow from operations; or (2) obtain additional financing through private placements, public offerings and/or bank financings necessary to support the Company's working capital requirements. To the extent that funds generated from any private placements, public offerings and/or bank financings are insufficient to support the Company's working capital requirements, the Company will have to raise additional working capital from alternative financing sources. No assurance can be given that alternative financing will be available, or if available, will be available on terms acceptable to the Company. If adequate working capital is not available, then the Company may not be able to continue its operations.

These conditions raise substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments relating to the recoverability and classification of asset carrying amounts or the amount and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

Note 5 – Subsequent Event

On September 1, 2014, the Company signed a Letter of Intent to acquire Avant Diagnostics Inc., a Nevada corporation with headquarters at 8561 East Anderson Drive, Suite 104, Scottsdale, AZ 85255 (herein referred to as “*Avant*”). The Letter of Intent was approved by our board of directors prior to signing but was not approved by Avant’s board of directors until September 10th, 2014. Avant Diagnostics Inc. is a medical technology company developing cutting edge medical tests, including OvaDx®, a Pre-Symptomatic Ovarian Cancer Screening Test.

The Letter of Intent provides for a closing date of no later than October 1st, 2014 and is predicated upon the results of a mutual due diligence period. The definitive agreement will provide for Avant warranting that:

- a) All third party consents required for acquisition are provided;
- b) All tax liabilities are paid or accrued;
- c) All insurance payments are paid or accrued
- d) All Accounts Receivable is collectable;
- e) All Accounts Payable are either paid or accrued;
- f) All equipment used in operation will be titled in Avant’s name;
- g) All capital stock acquired is free and clear of any liens, charges, encumbrances, or claims;
- h) All records will be provided to the Company at closing;
- i) All lawsuits or contingencies will be accrued on balance sheet;

It also contemplates the following actions:

- a) A new board of directors;
- b) New management of the Company;
- c) Certain consulting contracts to be entered into;
- d) 1 for 17 reverse split of the shares of the Company with round lot rounding up; and
- e) Reauthorization of four hundred and fifty million Common Stock shares.

The consideration for the acquisition of Avant will be the issuance of the Company’s Common Stock shares, the number of which will represent 96.5% of the Company’s outstanding Common Stock, or an equivalent number such that after the Company’s Preferred Stock shares with conversion privileges are converted into the Company’s Common Stock, ninety six point five percent (96.5%) of the then outstanding Common Stock shares of the Company will be issued to Avant shareholders. After a 1 for 17 reverse split of the Company’s Common Stock shares currently outstanding and the issuance of the shares issued as consideration for the acquisition, there will be approximately seventy million (70,000,000) Common Stock shares outstanding.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION.

Forward-Looking Statements

Certain statements contained in this Quarterly Report on Form 10-Q constitute "forward-looking statements". These forward-looking statements, which may be identified by words such as "plan," "anticipate," "believe," "estimate," "should," "expect" and similar expressions include our expectations and objectives regarding our future financial position, operating results and business strategy. The Company's forward-looking statements reflect the current views of management with respect to future events and are subject to risks, uncertainties and other factors that may cause our actual results, performance or achievements, or industry results, to be materially different from those described in the forward-looking statements. Such risks and uncertainties include those set forth under Item 1A. "Risk Factors" of the Company's Annual Report on Form 10-K for the fiscal year ended October 31, 2013. We advise you to carefully review the reports and documents we file from time to time with the SEC, particularly our periodic reports filed with the SEC pursuant to the Securities Exchange Act of 1934, as amended (the "Exchange Act"). The Company cautions readers not to place undue reliance upon any forward-looking statement contained in this Quarterly Report. Forward-looking statements speak only as of the date they were made and the Company assumes no obligation to update or revise any such statements upon any change in applicable circumstances.

OVERVIEW

The Company was incorporated on October 16, 2008 in the State of Nevada as "Oreon Rental Corporation". At the time of its incorporation, the management of the Company intended to operate electronics rental stores in Ternopil and other similar cities throughout Ukraine. However, at the time of its incorporation and its initial public offering of common stock in October 2008, the Company did not own any such stores, nor did it have any ongoing business operations. The Company underwent a change in management in January 2010 and another in January 2014. Following the change in management, the Company decided not to proceed with its original plan of operations and to shift its business focus to that of an independent oil and gas company engaged in the acquisition, drilling and production of oil and natural gas properties and prospects. The Company anticipates implementing this new business focus by pursuing interests in oil and natural gas properties by acquiring leases, such as the Original Leases and the Cortez Lease described below. The Company plans to act as a non-operator, which means the Company will not directly manage exploration, drilling or development activities but instead will seek joint ventures with oil and gas companies that have exploration, development and drilling expertise.

Sale of Oil and Gas Properties

During 2012, the Company has undertaken negotiations to sell its ownership interest in its Cortez and Gabbs leases to Desert Discoveries in exchange for a 2% overriding royalty interest in the lease should there be any future revenues derived from the property. The Company had determined that it did not wish to continue funding this project, as it is not sure if the project will be economically viable in the future. At this time, the Company cannot assign a value on these leases, as there is insufficient information to be able to do so. Accordingly, in October 2012, the Company completely wrote off the value of the property. The amount written off was \$1,423,439.

PLAN OF OPERATION

Limited Operating History; Need for Additional Capital

There is no meaningful historical financial information about us upon which to base an evaluation of our performance. We are in exploration stage operations and have not yet generated any revenues. We cannot guarantee that we will be successful in our business operations. Our business is subject to risks inherent in the establishment of a new business enterprise, including limited capital resources and possible cost overruns.

We are seeking additional equity financing in order to obtain the capital required to continue operating our business and invest in additional oil and gas properties.

As of July 31, 2014, we had cash on hand of \$0. We will require additional financing to sustain our business operations. We currently do not have any binding arrangements for any third party to provide us additional financing, and we may not be able to obtain financing when required. Obtaining additional financing would be subject to a number of factors that we do not control. These factors may make the timing, amount, terms or conditions of additional financing unavailable to us.

RESULTS OF OPERATIONS

Revenue

We have not earned any revenues to date. We do not anticipate earning substantial revenues from our royalty interest in the foreseeable future.

Operating Expenses

Our operating expenses for the three months ended July 31, 2014 and 2013 consisted of the following:

	Three Months Ended July 31,	
	2014	2013
General and Administrative Expenses	\$ 8,867	\$ 86,151
Total General and Administrative Expenses	\$ 8,867	\$ 86,151

General and administrative expenses during the three months ended July 31, 2014 consisted primarily of accounting expenses of \$3,000, SEC filing costs of \$3,108, travel and entertainment expenses of \$2,259 and license fees of \$500. General and administrative expenses decreased in 2014 by \$77,284 compared to the three months ended July 31, 2013, primarily due to a reduction in share-based compensation costs of \$2,263, accounting costs of \$2,061 and consulting fees of \$6,000, decrease in investor relations of \$36,124, and director's fees of \$25,500.

Our operating expenses for the nine months ended July 31, 2014 and 2013 consisted of the following:

	Nine months Ended July 31,	
	2014	2013
General and Administrative Expenses	\$ 29,354	\$ 278,220
Total General and Administrative Expenses	\$ 29,354	\$ 278,220

General and administrative expenses during the three months ended July 31, 2014 consisted primarily of accounting expenses of \$21,739, rent expense of \$577, license fees of \$500, professional fees of \$1,000, SEC filing costs of \$3,109, transfer agent fees of \$137, and travel expenses of \$2,259. General and administrative expenses decreased in 2014 by \$248,866 compared to the nine months ended July 31, 2013, primarily due to a reduction in share-based compensation costs of \$16,225, decreases in accounting costs of \$39,137 and legal fees of \$15,528, decrease in investor relations of \$60,186, consulting fees of \$12,000, rent expense of \$4,903, director's fees of \$76,000 and oil lease expense of \$17,173.

LIQUIDITY AND CAPITAL RESOURCES

Working Capital Deficit

	At July 31, 2014	At October 31, 2013
Current Assets	\$ –	\$ –
Current Liabilities	(61,326)	(31,972)
Working Capital Deficit	\$ (61,326)	\$ (31,972)

Cash Flows Used in Operating Activities	\$ –	\$ (271,762)
Cash Flows Used in Investing Activities	–	–
Cash Flows Provided by Financing Activities	–	–
Net Change In Cash During Period	\$ –	\$ (271,762)

Working capital deficit increased by \$29,354, primarily as the result of the net loss for the period.

Future Financings

As a result, as of the date of this Quarterly Report, we will not have sufficient cash on hand to meet our anticipated expenses for the next quarter. We do not anticipate earning revenue in the foreseeable future, and we do not expect sufficient debt financing to be available to us at this stage of our development. As such, we expect that we will need to rely on our ability to consummate new equity financings in order to fund our future operations. Issuances of additional shares of our capital stock (or securities that may be convertible into or exercisable for those shares) will result in the dilution of the interests of our existing stockholders.

There are no assurances that we will be able to obtain sufficient financing if and when required.

OFF-BALANCE SHEET ARRANGEMENTS

We have no significant off-balance sheet arrangements that have, or are reasonably likely to have, a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

CRITICAL ACCOUNTING POLICIES

Our significant accounting policies are disclosed in the notes to our audited financial statements for the year ended October 31, 2013 included in our Annual Report on Form 10-K for the fiscal year ended October 31, 2013.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

A smaller reporting company is not required to provide the information required by this Item.

ITEM 4. CONTROLS AND PROCEDURES.

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we have evaluated the effectiveness of our disclosure controls and procedures as required by Exchange Act Rule 13a-15(b) as of the end of the period covered by this Quarterly Report. Based on that evaluation, our principal executive officer and principal financial officer have concluded that these disclosure controls and procedures are effective.

There were no changes in our internal control over financial reporting during the last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

Limitations on the Effectiveness of Controls

Our management, including our President, Secretary and Treasurer, does not expect that our disclosure controls or our internal control over financial reporting will prevent or detect all errors and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system's objectives will be met. The design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Further, because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Controls can also be circumvented by the individual acts of some persons, by collusion of two or more people or by management override of the controls. The design of any system of controls is based in part on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Projections of any evaluation of the effectiveness of controls to future periods are subject to risks. Over time, controls may become inadequate because of changes in conditions or deterioration in the degree of compliance with policies or procedures.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

We may be involved from time to time in ordinary litigation, negotiation and settlement matters that will not have a material effect on our operations or finances. We are not aware of any pending or threatened litigation against us or our officers and directors in their capacity as such that could have a material impact on our operations or finances.

ITEM 1A. RISK FACTORS.

A smaller reporting company is not required to provide the information required by this Item.

 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth quarter in the case of this annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal controls over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
